

# Top Ten Popular Hair Extensions

Philis Hair

# Top 1

## Genius Weft

Genius Weft is incredibly thin and comfortable, blended invisible with consumers' own hair, the fantastic popular hair extension in the beauty market.

It's only around 0.6mm thick and 2.0mm tall.

# Top 2

## Seamless Silk Flat Weft

The NEW seamless flat weft has advantages in thickness and width, the flat is thinner and narrower, totally has a fabulous seamless wearing experience for girls.

It is absolutely one of the top-rated new items on the market trend.

# Top 3

## Invisible PU Flat Weft

The PU weft is waterproof, totally do not worry when raining or swimming. Can be cut freely and prevent hair loss. Can be used in many ways, sewing in or combining with tape any you like.

Easy to install, it can be used for at least 3 months at one time application, the weft can be reused 2-3 times.

# Top 4

## Classic Hand Tied Flat Weft

The most fashionable hair extension in the high market, our trained workers tie the hair one strand by one strand through the tiny cotton thread, very thin and soft.

Absolutely increase the thickness and length of the hair without heating, glue, or tape, blended seamlessly into your natural hair...

# Top 5

## Tape In

The ultra-thin adhesive strip does not cause any tension and feels completely flat on the head.

It is healthy and durable seamless just like the hair that grows from the scalp. It can be reused and the tape can be replaced easily.

# Top 6

## Slim Tapes

Much narrower and provides an undetectable finish looking with only 0.5cm height on the top.

Much more seamless and provide you with a natural looking. Easy to install and remove.

# Top 7

## I Tips bonded

A kind of microbead hair extension, perfect to add length, volume, or color effects with an invisible and seamless application.

We call it cold fusion, easy to install and remove, no glue, no hot tools, and no sew-in, there is no damage to the own hair.

# Top 8

## Flat Tips Bonded

Small pre-bonded keratin extensions and have a stronger fixing ability to easily cut many different shapes.

After the special forceps melt the keratin capsule, it can be shaped to provide a reliable bond in the client's hair. No sew-in, multi-species installation.

# Top 9

## PU Clips

The thickness of the PU weft is only about 1mm, which can truly fit seamlessly with the scalp.

All the clips are well sewn in three fixed positions to avoid dropping, matching the same color with the hair.

# Top 10

## Clip Ins

The fast way to increase volume and length, suitable for customers who try hair extensions for the first time or need to change their styling frequently.

Use the least number of clips to hold the most hair, no glue, and no damage to your own hair...
